

Science and Technology / Engineering

Liz Butler Everitt
K-8 STE Curriculum Coordinator
School Committee Presentation
May 8th, 2023

2016

Science and Technology / Engineering Framework

Framework Shifts

- Analyze and explain scientific phenomena
- Focus on conceptual understanding
- Integrate science practices and engineering
- Apply understanding to real world problems
- Build science core ideas and practices, K-8

NPS STE Implications

- Reconfigure our sequence of science core ideas
- Embed a purposeful progression of science practices and engineering
- Embrace a pedagogical shift to support student understanding and engagement

STE Framework Shifts and NPS Goals

Changes to the Science and Technology / Engineering framework
necessitate reworking science curriculum and instruction
and support our NPS Goals of Academic Excellence and Educational Equity.

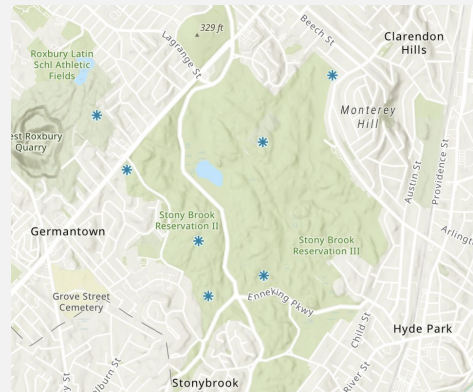

Complex Science Phenomena

Language Development

Community Connection

2015-2023

K-8 Curriculum Updates

Science and Technology / Engineering

| | 2015 | 2016 | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | 2023 |
|--------------------|----------------------|---|------|------|--------------------------------------|------|-----------------------|------------|------|
| Elementary Schools | | | | | Remote/Hybrid Adjustments | | Assess & Plan | | |
| | | | | | Some new units, primarily grades 3-5 | | New curriculum pilots | | |
| Middle Schools | New scope & sequence | NPS Middle School Teachers Develop New Curriculum | | | Remote/Hybrid Adjustments | | Assess & Plan | New pilots | |

*Grade 1, Pilot
Light and Sound*

2022-2023 Elementary Pilots

Science and Technology /
Engineering

*Grade 3, Pilot
Evolving Minds*

*Grade 5, Pilot
How can we identify materials
based on their properties?*

*Grade 2, New Unit
How can we stop soil from washing away?*

2022-2023 Elementary New Units

Science and Technology /
Engineering

*Grade 3, New Unit
Balancing Forces*

Grade 6, Pilot
Light & Matter

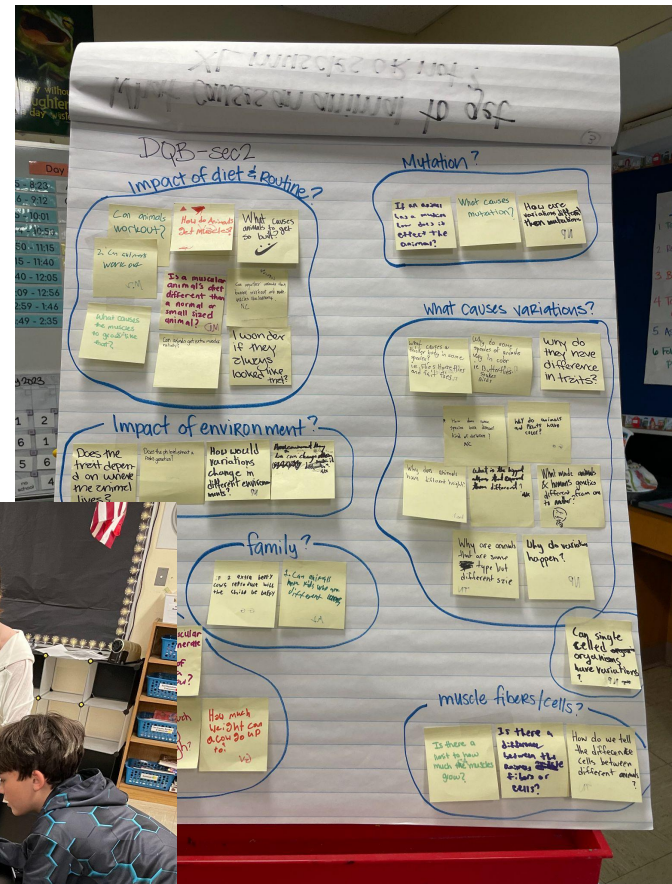

2022-2023 Middle School

Pilots

Science and Technology /
Engineering

Grade 8, Pilot
Genetics

2022-2023
Middle School

Development

Science and Technology /
Engineering

2023-2024 Focus

Science and Technology /
Engineering

K-2

- Application to field test OpenSciEd in two schools in 2022-2023
- Concurrently continue with an additional curriculum pilot

Grade 3

- Implement Evolving Minds unit following 2-year pilot
- Finalize NPS revisions to Climate and Life Cycles unit

6-8

- Grade 6 professional development and implementation of OpenSciEd Light & Matter unit
- Grade 8 collaboratively review Genetics unit pilot

K-8

- Continue work on examining practices around language development
- Expand to include supporting EL students
