RE: Wellness Policy Triennial Assessment

---

The USDA Food and Nutrition Services strengthened regulations and guidelines for local wellness policies in 2016, referred to as the Final Rule, which requires that wellness policies need to be updated every three years by each local educational agency (LEA) that participates in the National School Lunch or Breakfast Program.

The Final Rule requires wellness policies to include:

- Specific goals for nutrition promotion and education, physical activity, and other school-based activities that promote student wellness.
- Standards and nutrition guidelines for all foods and beverages sold to students on the school campus during the school day that are consistent with federal regulations for:
  - School meal nutrition standards, and the
  - Smart Snacks in School nutrition standards.
- Standards for all foods and beverages provided, but not sold, to students during the school day (e.g., in classroom parties, classroom snacks brought by parents, or other foods given as incentives).
- Policies for food and beverage marketing that allow marketing and advertising of only those foods and beverages that meet the Smart Snacks in School nutrition standards.
- Description of public involvement, public updates, policy leadership, and evaluation plan.

The first Triennial Assessment was due on 6/30/20, which has been waived three times during the pandemic but is now due by 6/30/23.

The major requirements of the Triennial Assessment are that each LEA,

1. Perform an assessment of our current policy through [WellSAT:3.0](#), The Assessment Scorecard and the Assessment Tool are attached.
2. Share the results of the local wellness assessments with the public, which can be done through a duly-posted SC meeting.
3. Have the local wellness policy - reflective of any recommended changes - approved as of 6/30/23.

This work has been ongoing for several months and has included extensive collaboration between the three of us; with Toby Romer and Jill Murray Grady; with the Wellness Committee, who affirmed the recommended Wellness Guidelines on 5/2/23; and with Kathy Shields as the representative of the School Committee Policy Review Subcommittee on 5/15/23.

Attached, please find a red-line version of the Wellness Guidelines and a clean copy of the affirmed changes, which are referenced in the attached red-line version of the Wellness Policy. The reference of the Wellness Guidelines in the Wellness Policy allows Newton to be fully compliant with the [2016 Final Rule requirements](#) yet also allows the policy to maintain high-level direction, as intended.

For context, the recommended policy changes align Newton with the federal requirements and with slightly more rigorous DESE standards. We made changes to add more specific language to current practice within the Guidelines, as required in the Final Rule, However, the majority of the changes just reflect specificity of language and not major changes to practice that Newton already had in place.

We are requesting your review of the recommended Wellness Policy changes and for a subsequent vote affirming these changes so that we are fully compliant with the Triennial Assessment process prior to the 6/30/23 deadline.

## **file: ADF - WELLNESS POLICY**

The School Committee recognizes the relationship between student well-being and student achievement as well as the importance of a comprehensive district wellness program. Therefore, the school district will provide developmentally appropriate and sequential nutrition and physical education as well as opportunities for physical activity. The wellness program will be implemented in a multidisciplinary fashion, ~~and~~ will be evidence based, **and will reflect the requirements of the Healthy, Hunger-Free Kids Act (HHFKA) of 2010.**

### **Wellness Committee**

The school district will establish a wellness committee that consists of at least one (1): parent, student, nurse, school food service representative, School Committee member, school administrator, member of the public, and other community members as appropriate. If available, a qualified, credentialed nutrition professional will be a member of the wellness committee. The school committee designates the following individual(s) as wellness program coordinator(s): Coordinator of Physical Education and Health. Only employees of the district who are members of the wellness committee may serve as wellness program coordinators. Wellness coordinators, in consultation with the wellness committee, will be in charge of implementation and evaluation of this policy. **This committee will meet four times per school year.**

The School Committee endorses the following policies to inform this wellness program:

1. All foods available in the Newton Public Schools will comply with the current USDA ~~Dietary Guidelines for Americans~~ **school meal and Smart Snacks in School nutrition standards** and the Newton Life Threatening Food Allergy Policy and Guidelines.
2. Nutrition education to teach, encourage, and support ~~healthy eating by students~~ **student wellness** will be offered as part of a sequential, comprehensive, standards-based program.
3. The Newton Public Schools is committed to the ~~proposition~~ **core belief** that physical education and physical activity opportunities are essential components of maintaining health and academic success. All students will receive physical education/wellness instruction taught by a certified physical education/wellness teacher with additional opportunities for physical activity through daily, supervised recess in elementary schools and before and after school programs in secondary schools.
4. In order to contribute to the health, safety and quality of life of students, the Newton Public Schools encourage walking, bicycling, school bus/van, car pool, and other means of mass transit to access school buildings. The district recognizes that students and staff benefit from bicycle and pedestrian safety education and training to help make the trip to and from school a safer and more appealing mode of transportation. In addition, the district anticipates these efforts will minimize traffic and congestion, and curtail idling near schools, which is prohibited by state law.
5. The comprehensive wellness program will undergo ~~periodic review~~ **a Triennial Assessment** to ~~ensure that it continues to meet these goals~~ **assess compliance with USDA and DESE requirements, review of the District's wellness policy in consideration of**

model wellness policies, and review of the District's progress towards the goals outlined in the wellness policy.

The results of the Triennial Assessment will be presented to the School Committee to provide an opportunity for recommended updates to the policy or guidelines and to keep the community informed .
