

# MOBILE HOLOCAUST EXHIBIT AND ORIGINAL ARTIFACT COLLECTION

RAISING AWARENESS OF THE HOLOCAUST, COMBATING ANTISEMITISM AND ALL FORMS OF HATE THROUGH EDUCATION

## COMBATING HATE

Hate Ends Now is an immersive, traveling exhibit that **educates audiences** about the Holocaust, and the dangers of antisemitism, intolerance, and racism.

Housed inside an exact replica of a WW2 era cattle car just like the ones used to transport Jews and other targeted groups to concentration and death camps during the Holocaust is a powerful 360 degree immersive presentation.

Accompanying the exhibit is a rare collection of **original Holocaust artifacts**.

This unique, out of the box and **out of the classroom** exhibit is an accessible, impactful, and unforgettable educational experience. It is perfectly suited to the next generation of audiences in a way that textbooks and traditional museums are not.

How did hatred lead to genocide? What warnings signs will you learn from history? Do you have what it takes to stand up to hate?

# EMPOWERING THE FUTURE

## Mobile Holocaust Exhibit

The exhibit goes beyond a lesson in history and calls attention to the dangers of intolerance, antisemitism and hate that exist around us today. Visitors leave with a clear image of what happens when it's left unchecked.

This immersive presentation is unique, engaging, and perfectly suited to the next generation of audiences.

Trained docents travel with the exhibit and greet visitors, familiarizing them with the car, providing critical context and framing the presentation. Lesson plans and support materials for facilitators and teachers are included, to continue the education beyond the exhibit.

Visitors see and hear first hand the accounts of survivors, Hedy Bohm and Nate Leipziger followed by a brief history of the Holocaust. The film then connects recent news to the jarring reality of similar events more than 80 years ago.

The presentation concludes with an **empowering self reflection and call to action** to the viewer.

To bring the exhibit to your school, organization or community contact:  
Info@HateEndsNow.org | www.HateEndsNow.org

- Educates up to 300 visitors/day
- Easily transportable
- Self powered in any location
- Under one hour setup time

## CONNECTING TO THE PAST

### Holocaust Artifacts Collection

Original collections are rarely, if ever permitted outside the safety and security of bricks and mortar museums. It is this accessibility, to be able to get up close to these 25 true artifacts that makes this opportunity especially unique and impactful.

Examples of artifacts include: "Jews aren't welcome here" store sign, a yellow Jewish star patch, propaganda postcards, ghetto money, a striped prisoner uniform, and a Zyklon B label.
