From: Randy Hart, Principal

Re: Post Occupancy
Transportation Monitoring
Trio Newton
Newton, Massachusetts

Introduction

Vanasse Hangen Brustlin, Inc. (VHB) on behalf of Mark Development Traffic Monitoring Study in compliance with the requirements of June 19, 2017, In City Council Order for the formerly named Washington Place project. The project has been renamed to Trio Newton and is located at 845 Washington Street in Newton, Massachusetts. Specifically, General Conditions number 32 requires:

At the sole expense and within 12 months of the issuance of the final certificates of occupancy, the Petitioner shall complete a post occupancy traffic study to document and assess (i) the actual traffic characteristics, volumes, and operating conditions of the Project including safety and crash results; (ii) evaluate the success and refine elements of the TDM measures including parking utilization and residential and commercial tenant mode shares; and (iii) assess traffic volumes and operating conditions at the intersection of Walnut and Washington Streets, at the intersection of Washington Street and Lowell Avenue, at the intersection of Foster Street and Walnut Street, at the intersection of Foster Street and Lowell Avenue, at the intersection of Page Road and Walnut Street, and at the intersection of Page Road and Lowell Avenue. Traffic counts shall be performed under average month conditions while public schools are in regular session. The results shall be submitted to the City prior to the end of the calendar year in which the study is completed. If the results indicate the actual measured traffic volumes associate with the project as constructed and occupied exceed the trip estimates presented in the Traffic Impact Assessment by more than 10 percent of the project trip generation for the then occupied uses as measured at the two primary driveways serving the Project or the intersection of Walnut and Washington Street, then the Petitioner shall correct the problem by implementing the following mitigation measures:

- a. Appropriately adjust the traffic signal timing, phasing and coordination for the Walnut and Washington Street intersection;*
- b. Implement refinements to on-site traffic flow and parking management; and/or*
- c. Expand of modify the elements of the Transportation Demand Management Plan measures in order to increase the use of public transportation and/or other alternatives to automobile travel, subject to review of the Director of Planning and Development in consultation with the City's Director of Transportation.*

This memorandum summarizes the post occupancy data collected.

Crash Summary

A detailed crash analysis was conducted at the intersections identified in the Council Order for the most current vehicle crash data. That data was compared to the crash data that was gathered during the development of the TIA for the Trio project. The current MassDOT data that is available is for the period of 2015 to 2019 and the data which was available during the development of the Traffic Impact Assessment was for for the years 2009 to 2013. The comparison is provided in Table 1 below. It should be noted that the crash data available from the MassDOT portal only goes to 2019. The traffic signal improvements at Washington Street and Walnut Street and Washington Street and Lowell Street went into operation at the end of 2020 so the crash data does not represent the positive influence that has likely been realized by the signal improvements that were implemented as part of the Trio project.

Source: Crash data was obtained from MassDOT Crash Portal, accessed December 2022.

Trip Generation

For the purpose of comparing the traffic projections for the Trio development to actual driveway traffic counts at the facility after full occupancy of the site, an assessment has been conducted. It should be understood that the project program evolved during the local permitting project and ended up being slightly different than that represented in the original TIA for the project. To provide full disclosure, traffic volumes from the original TIA as well as projections that have been made from the final program outlined in the Council Order are compared to the empirical driveway counts that were recently conducted after full occupancy was realized. To estimate the number of vehicle trips to be generated by the proposed redevelopment, traffic generation projections were prepared based on Institute of Transportation Engineers (ITE) *Trip Generation Manual*¹ data for Land Use Code (LUC) 220 (Multifamily Housing (Low-Rise)), LUC 932 (High-Turnover (Sit-Down) Restaurant), LUC 936 (Coffee/Donut Shop without Drive-Through Window), and LUC 822 (Strip Retail Plaza). Detailed trip generation calculations are included in the Attachments.

Unadjusted Project-Generated Traffic

Table 2 presents the Project-generated vehicle trips by land use based on ITE data.

Table 2 Unadjusted Project-Generated Vehicle Trips

	Original TIA (May 2016)	Traffic Projection for program in Council Order		
	Total ^a	Total ^b	Empirical Driveway Counts ^c	Difference ^d
Weekday Morning				
Enter	77	85	52	-33
Exit	<u>96</u>	<u>118</u>	<u>40</u>	<u>-78</u>
Total	173	203	92	-111
Weekday Evening				
Enter	241	244	128	-116
Exit	<u>227</u>	<u>221</u>	<u>103</u>	<u>-118</u>
Total	468	465	231	-234

Note: Peak hour trip generation based on peak hours of generator.

- a Residential trip generation estimate based on ITE LUC 220 (Apartment) with 140 units, using regression equation where available, retail trip generation based on Trip generation estimate based on ITE LUC 820 (Shopping Center) with 49,160 sf (9th Edition Trip Gen updated 2015)
- b Residential trip generation estimate based on ITE LUC 220 (Apartment) with 160 units, using average, retail trip generation based on ITE LUC 820 (Shopping Center) with 47,165 sf, using average, community center trip generation based on LUC 495 (Recreational Community Center), using average (11th Edition Trip Gen updated 2021)
- c Empirical driveway counts conducted on November 3, 2022
- d Differenced between council order traffic projections and empirical driveway counts

¹ Trip Generation Manual, 11th Edition, Institute of Transportation Engineers, Washington, D.C., 2021.

As demonstrated in the table, the fully occupied Trio site is generating daily and peak hour traffic at a rate which is far below the projections from the original TIA and updated projections based on the final program that is defined in the Council Order. VHB represented that the projections that were put forward in the TIA were conservative particularly given the use of the ITE Land Use Code 820 Shopping Center for the retail component of the project. This is demonstrated in the table where we show the project is generating 111 than projected during the morning peak hour, and 234 less trips than projected during the weekday evening peak hour.

Traffic Demand Management Survey Summary

The Traffic Demand Management Survey Summary has been conducted and the results were provided to the City as part of a separate submission on September 20, 2022.

Traffic Operational Analysis

As required in the Council Order, intersection operational analyses have been prepared based on the updated traffic counts that were collected post full occupancy. Those operational analyses have been compared to the operational analyses that were prepared in the Trio TIA. Table 3 presents the comparison of former and existing intersection operational analyses.

Garage Parking

Leasing Data: Trio’s Parking Garage has a total of 210 parking spaces. The table below shows how many residential parking spaces were leased in the six months since the Post-Occupancy Traffic Study commenced (September 2022 through February 2023). On average, **136 spaces** are leased at any given time by residents of Trio. Of these 136 spaces, 25 are leased to affordable units and 111 are leased to market rate units. Tenants of the retail spaces lease an additional **10 spaces**. Thus, there are **64 spaces** in the garage that are not leased (on average).

	As of September 2022	As of October 2022	As of November 2022	As of December 2022	As of January 2023	As of February 2023	Average
Affordable Parking Spaces	24	24	24	24	28	27	25
Market Parking Spaces	108	110	109	117	110	101	111
Units Occupied	128	131	132	130	132	128	130
Total Spaces	132	134	133	141	138	128	136
Parking Ratio	0.94	0.96	0.95	1.01	0.99	0.91	0.97

Utilization Data: Mark Development commissioned a separate third-party vendor (Stantec) to take actual vehicle counts in the parking garage at Trio during two random mid-week 24-hour periods at the beginning and end of the Post-Occupancy Traffic Study to confirm utilization. Cars were counted at 1:30PM, 6:30PM, and 12:00AM in the parking garage. The results of the two parking count exercises are summarized below:

August 25, 2022

- 1:30PM: 76 of 210 spaces in use (36.2%)
- 6:30PM: 75 of 210 spaces in use (35.7%)
- 12:00AM: 109 of 210 spaces in use (51.9%)

February 2, 2022

- 1:30PM: 75 of 210 spaces in use (35.7%)
- 6:30PM: 85 of 210 spaces in use (40.5%)
- 12:00AM: 116 of 210 spaces in use (55.2%)

How much did Trio's location factor into your decision to lease here?

30 responses

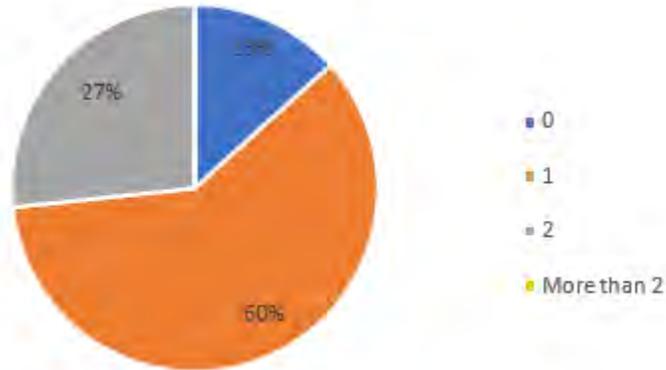

What alternative modes of transportation are you most likely to use?

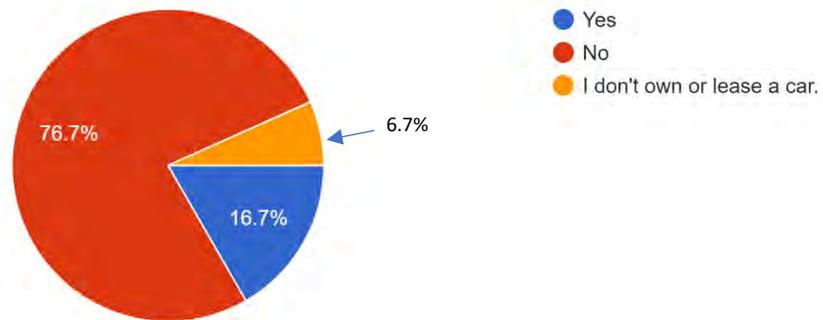

How many cars does your household own or lease?

30 responses

If you do own or lease a car, is it electric or hybrid?

30 responses

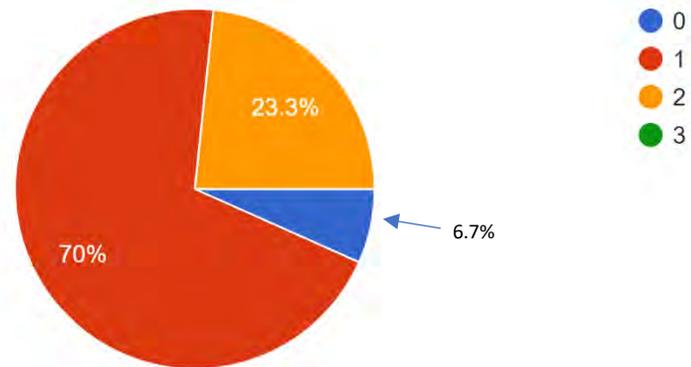

If you do not own or lease a car, why is that? 5 responses

1. Student
2. Business
3. Not driving anymore
4. I would like to save to buy my own car one day
5. N/A

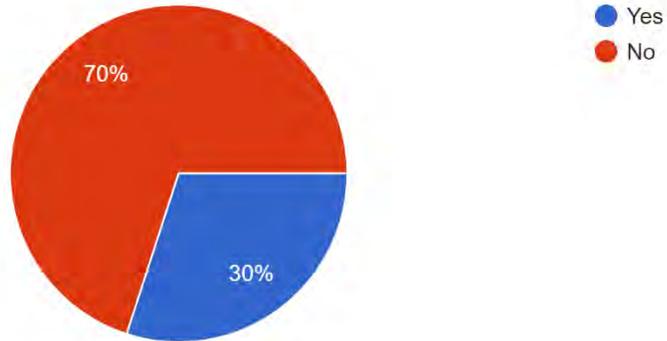

How many parking spaces do you rent at Trio?

30 responses

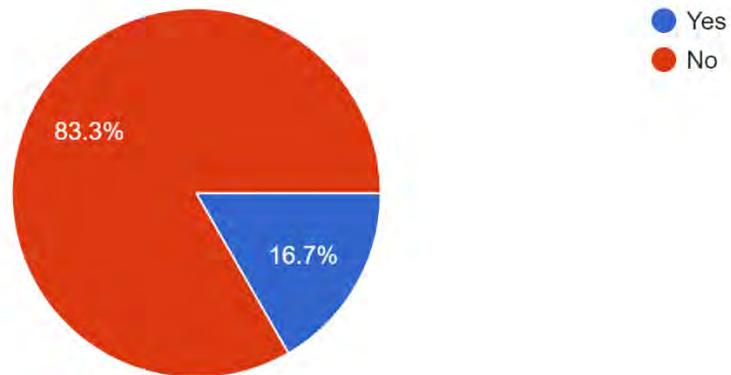

Do you own a bicycle?

30 responses

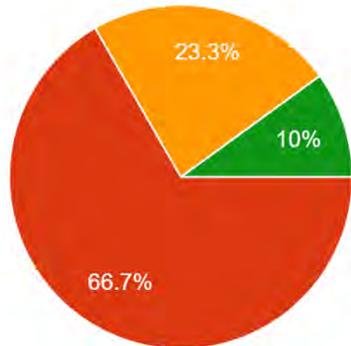

Do you use the bicycle storage in the garage?

30 responses

What is your employment status?

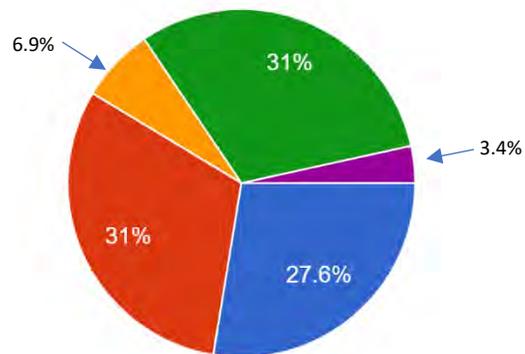

30 responses

- Unemployed
- Employed
- Retired
- Student
- Prefer not to say

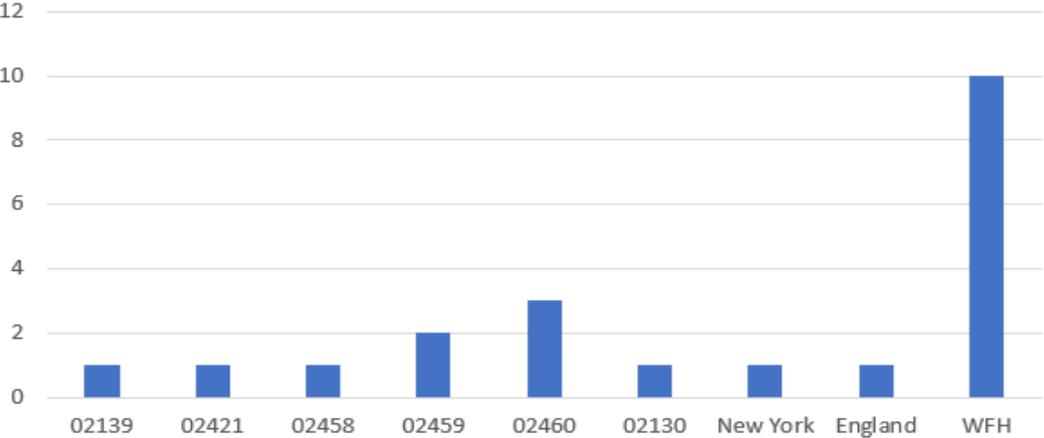

Does your employer allow you to work from home?

29 responses

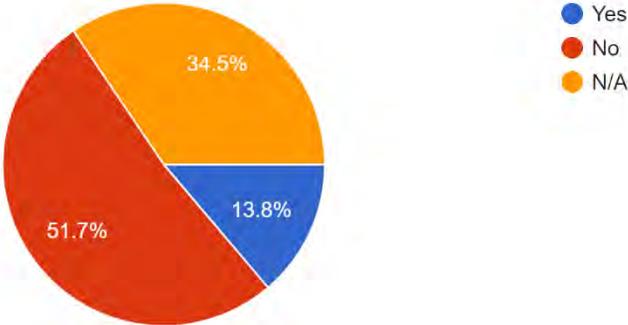

- Yes - Fully Remote
- Yes - Hybrid Schedule
- No
- N/A
- Retired

Where is your workplace located? Please state the zip code. If you work from home, please state you work from home.

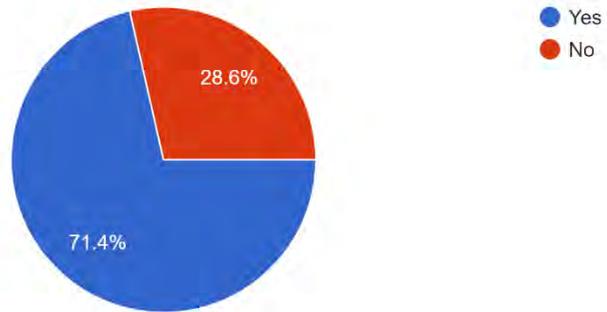

Does your employer offer subsidies towards using public transportation?

29 responses

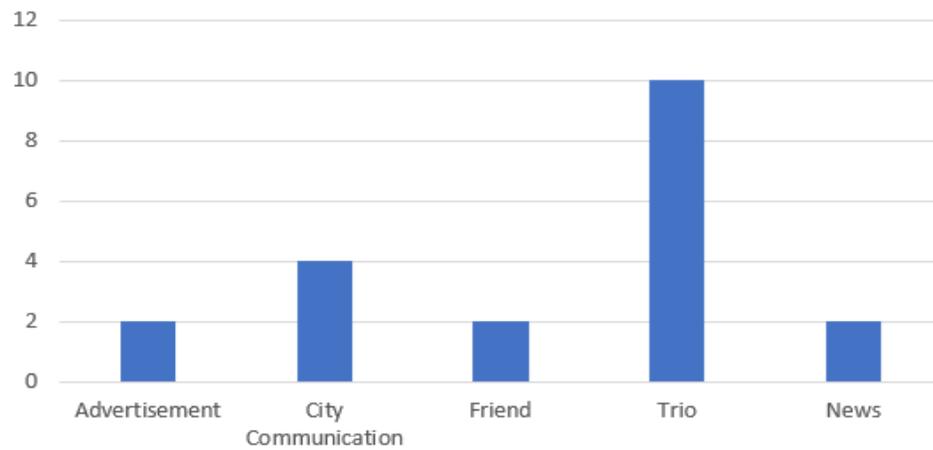

Have you heard of Newton's ridesharing service, NewMo?

28 responses

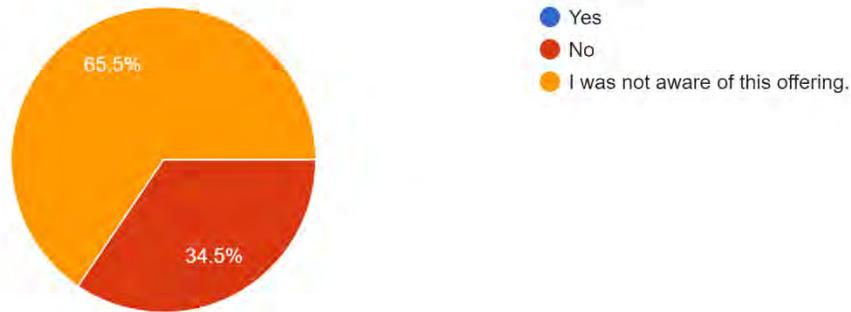

If you have heard of NewMo, how did you hear about it?

20 responses

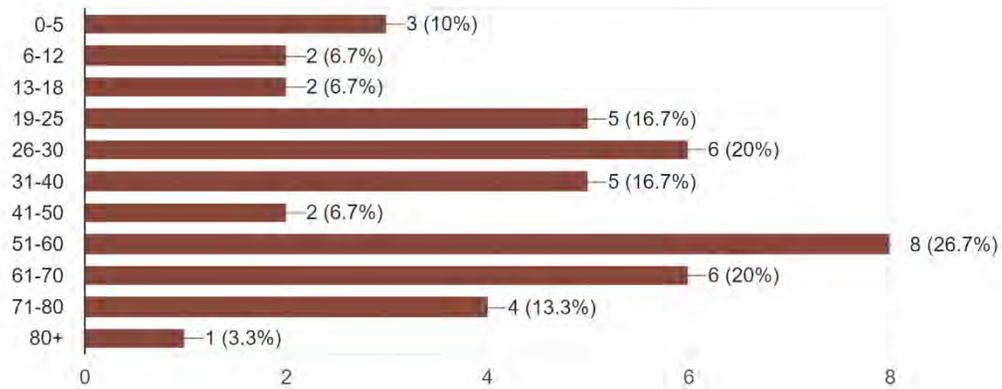

Have you taken advantage of Trio's public transportation reimbursement program?

29 responses

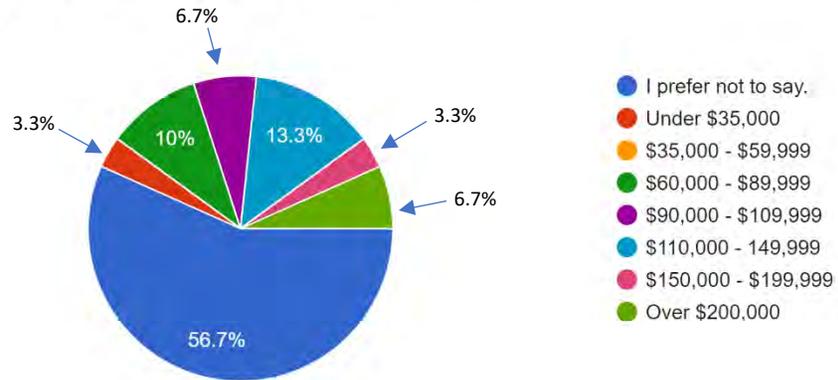

What is the age range of those that live in your unit? Check all that apply.

30 responses

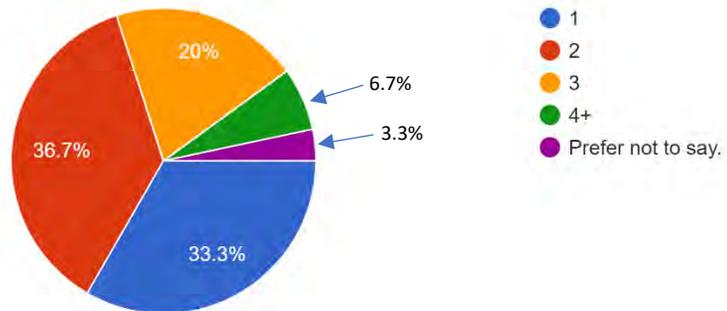

What is the range of your annual household income? Please include the annual income for all adults in the household 18 years or older.

30 responses

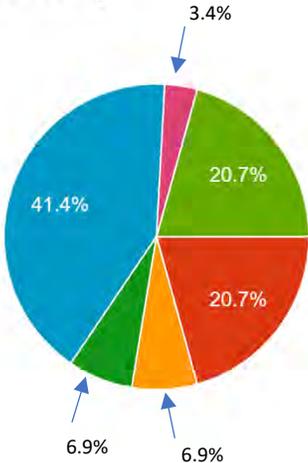

How many individuals make up your household (including you)?

30 responses

What is your race/ethnicity?

29 responses

- American Indian or Alaska Native
- Asian
- Hispanic
- Black or African American
- Native Hawaiian or Other Pacific Islander
- White
- Multiracial
- Prefer not to say
